

## Sustainability Policy

Pristine Clean Services Ltd is committed to ensuring that all reasonable steps are being undertaken to deliver only sustainable products and services to all our client partners; and that only sustainable products and services are purchased from our suppliers.

The objectives of this policy are:

- Reduction of carbon emissions by wise use of transportation
- Encouraging suppliers and clients alike to conduct operations in an environmentally efficient manner
- Reduction of carbon emissions by wise use of transportation
- Encouraging suppliers and clients alike to conduct operations in an environmentally efficient manner
- Reduction of non-sustainable products and services by transfer to companies using recycled base products and sustainably managed forests
- Recycling and encouraging suppliers to recycle wherever possible including metals, paper, plastics and electrical equipment
- Promote diversity and equality within the workforce by recruitment and retention of workforce.
- Encourage use of new working systems, methods and equipment to continually improve our carbon footprint.

This policy covers environmental, economic and ethical matters and is supported both by our Environmental and Diversity & Equal Opportunities Policies.

This policy will be reviewed every 2 years or in the event of updated legislation.
